Model	Length	I.D.	Pressure	Colour	Mounting
PFS-CDM1	8m	6mm	200psi	White	Bench
PFS-WDM1	8m	6mm	200psi	White	Wall

FEATURES & BENEFITS OF THE CONCEPT:

- Eliminates the use of a fixed guide arm in a wall/ceiling mount position.
- Easy to install with no need for post installation adjustments.
- Unique, automatic, 90° vertical rotational span.
- Covers various mounting positions.
- Balanced clock spring produces enough torque to displace the weight of the guide arm.
- Allows the guide arm to move vertically up and down in a smooth, effortless and fully automatic manner.
- The roller guide and arm/s will always be directly facing the user.
- Giving total control on payout and retrieval.
- Allows the units to be mounted at an increased height.
- Removes the possibility of harm to the operator, passing personnel or damage to machinery compared to low-level units.
- Roller guide arm returns to its rest position after use.
- Sets the reel ready for the next operator.
